Summary

Data Analyst and B.Tech CSE graduate with strong foundation in **data analytics**, **business intelligence**, **ETL pipelines**, and **statistical modeling**. Experienced in SQL, Excel, **Power BI**, data modeling, and dashboard development with proven ability to convert raw datasets into actionable business insights and cost optimization solutions.

Skills

Skills Data Analysis, ETL Process, Data Cleaning, Data Transformation, Data Modelling, Data Visualization, Business Intelligence, Insight Generation, Trend Analysis, Data Storytelling, Documentation
Tools Microsoft Excel, Google Sheets, SQL, SSMS, Power Automate, Power BI, Google Looker, Python, Microsoft Azure, ETL Workflows, MS Office 365

Work Experience

Data Analyst

Nov 2025 – Present

Sceniuz (Mumbai)

- Delivered end-to-end **data analytics solutions** using **ETL pipelines**, Power Query, and Power BI to transform raw enterprise data into insights.
- Built **enterprise BI dashboards** for KPI tracking, operational performance, and business intelligence reporting.
- Conducted **license optimization analysis** identifying inefficiencies and delivering **45 lakh annual cost savings**.
- Designed scalable **data models**, DAX measures, and optimized reporting systems for decision-making.
- Extracted and analyzed datasets using **SQL Server Management Studio (SSMS)**.
- Automated workflows using **Microsoft Power Automate**, improving operational efficiency.

Client Relationship and Operations Executive

May 2025 – Sept 2025

Ingenious E Brain (Gurgaon)

- Managed end-to-end **client relationship operations** with support from structured data analysis.
- Handled **data-driven operational workflows** including CRM management, lead tracking, and reporting.
- Performed **data cleaning, validation, and analysis** using Excel and CRM systems.
- Supported **sales strategy execution** through insights and performance reporting.
- Coordinated **client onboarding and operational execution** across teams.

QA Trainee

Aug 2024 – Nov 2024

Monkhub Innovations (Gurgaon)

- Performed **manual testing** and data validation ensuring system accuracy and reliability.
- Assisted in **project management activities** including task tracking, sprint coordination, and delivery monitoring.
- Maintained project datasets and documentation using Excel and Basecamp.
- Created **defect reports**, test cases, and test summary dashboards.
- Supported end-to-end **software testing lifecycle** including requirement analysis, execution, and regression testing.

Projects

Reed Spend Analysis

- Built end-to-end **Power BI dashboard** for spend analysis, vendor performance, and cost optimization.
- Performed ETL using Power Query including cleaning, transformation, and data masking.

- Developed advanced **DAX measures** (YTD, MTD, variance, cumulative trends).
- Identified high spend areas and cost optimization opportunities.
- Implemented interactive dashboards with drill-downs and KPI storytelling.
- Enabled supplier performance analysis for business decision-making.

NVIDIA Stock Analysis

- Built time series forecasting dashboard in **Power BI** for NVIDIA stock trends.
- Designed calendar-based data model and applied DAX forecasting models.
- Performed price vs volume correlation analysis for market insights.
- Delivered predictive insights: \$195 (2025), \$260+ (2026).
- Built multi-layer forecasting model (Yearly, Quarterly, Monthly).
- Enhanced financial storytelling using KPI and trend visualization.

Education

2020 – 2024 B.Tech in Computer Science Engineering, Maharshi Dayanand University

Certifications

Apr 2025 – Oct 2025	Data Analysis Training Program – Acciojob
Oct 2023 – Dec 2023	Data Analysis (Power BI) – ICT Academy (Honeywell Sponsored)
July 2023 – Sept 2023	Data Science – Internshala

Languages

English, Hindi
